Claude Acero : Relocate, Survive And Be Successful In Crazy Spain: Families, Pensioners And Entrepreneurs Move To Spain The Easy Way before purchasing it in order to gage whether or not it would be worth my time, and all praised Relocate, Survive And Be Successful In Crazy Spain: Families, Pensioners And Entrepreneurs Move To Spain The Easy Way:

3 of 3 people found the following review helpful. Pretty thin - don't bothBy Oz DiGennaroPretty thin. Some useful details if you are starting a business -- but nothing for tourists or retirees. Quite harsh about Spanish Bureaucracy, with little suggestion how to manage.5 of 6 people found the following review helpful. Don't Be FooledBy john s. sigismondiThis book was a bad joke and a rip-off. The author, Claude Acero, stretches out basic and vague info that

could have been found on any general website on Google into a thin paperback that is closer to a brochure. He also doesn't number the pages (probably to hide the fact there are so few of them) and also uses 24" print while leaving huge spaces between passages, something a 9th grader might do to fill up pages on which he/she has little to say. The claims this book makes to help one survive and be successful in Spain are ludicrous as there is too little in this book to do any of that. The book, even at \$7.99, is a clear scam and a quick cash-grab getting unsuspecting internet users to purchase it based on the ad. It would never sell in a bookstore nor probably even be taken out of a library for free (since you can read it in about ten minutes). Don't be fooled like I was. 0 of 0 people found the following review helpful. This book was a bad joke and a rip-off. By Jiab This book was a bad joke and a rip-off. This book only focuses on starting a business in Spain and it's the most pessimistic view of Spain I've ever read. He uses 24" print while leaving huge spaces between passages to fill up pages on which he/she has little to say. There's very little useful information. Thanks for to refund my money. At \$7.99, it's too expensive for the little to no information book.

Discover how to become successful in Spain! This "critical" book will help you to get started. You find the "nuts and bolts" of international living in Spain, business and investment information, personal stories, pitfalls, legal as well as tons of practical advice. This book will be your guardian when making the move to the country of mañana.
