Did not try to repair disc surface and product was received after I returned from Spain. 1 of 2 people found the following review helpful. Great planning map By LB77 Rick's products as always are high quality and a fair value. This map is good for planning, as advertised. Not a road map per se however. If you need that, get one from Michelin 1 of 1 people found the following review helpful. Ok video, lots of info, but slow By John Blackburn I love watching travel videos and Rick does a good job, but tends to dwell forever on one object or place. good stuff but a bit boring.

Join host Rick Steves on a 2-hour Iberian odyssey through the best of Spain and Portugal in five half-hour "Rick Steves' Europe" TV shows. Starting in Madrid, Rick wanders through the lavish Royal Palace, savors great art, and feels the pulse of flamenco. In nearby Toledo and Salamanca, Rick marvels at El Greco's masterpieces and enjoys some nightlife. To the south, Seville reveals its Moorish roots and tasty tapas, and Arcos treats viewers to the ultimate whitewashed hill town experience. To the west, Lisbon's ornate architecture recalls the glory days when Vasco da Gama and Magellan made Portugal a world power. Leaving the city, viewers will feel the wind at Cape Sagres, soak in the sun on the Algarve Coast, and taste some salty barnacles.

You stop watching the shows for information and start watching because Rick is in them . . . smart, likeable, and impossibly goofy. -- San Francisco Chronicle, July 18, 2004
