**Rick Steves : Rick Steves' Germany 2011 with map** before purchasing it in order to gage whether or not it would be

worth my time, and all praised Rick Steves' Germany 2011 with map:

6 of 6 people found the following review helpful. The BestBy JA TuteurOnce again, the Rick Steve's travel books set the standard. They seem to be continuously updated. That is something many of the others fail to do. The suggestions in these books are have proven to be helpful. His comment regarding obtaining pin numbers for all of our credit cards, actually saved our last trip. At this point, after deciding where we are going, I purchase the Rick Steve's book(s) that cover the country/city of our destination. It has become part of our travel routine.3 of 3 people found the following review helpful. Extremely HelpfulBy CAHI just got back from a week in Munich, Germany (first time and hopefully not the last!!). Took several books on both Germany and Bavaria, and this, hands down, turned out to be the most helpful.From telling you about eating establishments and their habits to different places to visit. Totally made me wish I had another week or three to spend in the area so I could see some more of the sights listed in the book. And all the sights are listed with a frank opinion of whether or not they may or may not be worth a view. I really appreciated that as time for me was limited.While I've always enjoyed Rick Steves show, this is the first guide book of his that I've used. I will definitely look to his books in the future.4 of 4 people found the following review helpful. Great as usualBy Donna L. NiellWe used Rick Steve's guides on our trip to London 4 years ago so bought this guide for our upcoming trip to Germany. As usual it did not disappoint. We have already used it to plan our itinerary and make several hotel reservations based on his recommendations. When we went to England we took the book with us in our luggage and tore out the section needed for each day's sight seeing to lighten our load. This sounds extreme but the book will be updated every year so when we do England again we will get a new book for that trip to take advantage of the updated information. I highly recommend this book and the Rick Steve's luggage. My suitcase will be going on it's 4th or 5th trip with us.

You can count on Rick Steves to tell you what you really need to know when traveling in Germany. This guidebook takes you from fairy-tale castles, alpine forests, and quaint villages to the energetic Germany of today. Get the details on cruising the romantic Rhine or summiting the Zugspitze. Have a relaxing soak at a Black Forest mineral spa or take an exhilarating summer bobsled ride in the Bavarian Alps. Flash back to Berlin's turbulent past at Checkpoint Charlie; then celebrate the rebirth of Dresden and its glorious Frauenkirche. Rick's candid, humorous advice will guide you to good-value hotels and restaurants. He'll help you plan where to go and what to see, depending on the length of your trip. You'll learn which sights are worth your time and money, and how to get around Germany by train, bus, car—and even boat. More than just reviews and directions, a Rick Steves guidebook is a tour guide in your pocket.
