I love Rick Steves's guide to specific cities. I have never used his country/region versions. I like his city ones because they are so exact and precise. He gives lots of useful information to the worrisome traveller and also provides such great historical, factual, and contemporary descriptions of everything and anything in Rome. His tours, his guides, his outlines are all just well organized, to the point, and written in a style no one would mind reading. A definite gift or purchase0 of 0 people found the following review helpful. Can't wait to get to Rome!By Jody SchlapperThis book will be my BIBLE when traveling to Rome. There are so many good tips and inside information. Having this book will help us plan our trip and make the best of our time and money. Because we're traveling NEXT August, I believe I'll try the 2007 addition too. Thanks Rick Steves!!0 of 0 people found the following review helpful. Rick Steves RomeBy G. SmithMr. Steves Rome tour guide is, like most of his other books very useful. I always want to know where to stay and have that arranged before I arrive in a city. Rick's useful information helps with that. He has very good ideas for arranging a tour of the city and helps with places to eat.
