Rick Steves : Rick Steves' Spain and Portugal DVD 2000-2009 before purchasing it in order to gage whether or not it would be worth my time, and all praised Rick Steves' Spain and Portugal DVD 2000-2009:

Rick Steve does a great job of giving you a balanced view of the history, the culture, and the "must eat" foods of each location. It's basically a well documented vacation experience. Use this in combination with a typical travel book that will give you more specific info on attractions, food, accommodations and tourist warnings (ie: pickpockets and shopping scams).1 of 1 people found the following review helpful. Defective DVDBy L. A. LotortoThis DVD came

and it looked as though it had been damaged before or in transit; the center spindle that holds the disk was broken so the disc was able to slide around in transit which caused the disc to skip and not play on some tracks on my DVD player. Very disappointed. 1 of 1 people found the following review helpful. Couldn't file claim for refund
