**Rick Steves : Rick Steves' Spain Portugal 1999 (Serial)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rick Steves' Spain Portugal 1999 (Serial):

6 of 6 people found the following review helpful. Very good, but not the Bible. By A Customer This book is great for what it tries to be: an easy and concise resource to guide you through a 3 week tour of Spain and Portugal. He confidently steers you to the major and minor (though equally fun and interesting) attractions with his star system, and suggests good budget hotels and eateries (show the book to a few hotels and get a 10% discount). His descriptions about prices and schedules are accurate. While we heartily recommend the book, it must be used to supplement another, more detailed guidebook (we used Lonely Planet). Other critiques: (1) his indifference towards the Gaudi architecture scene in Barcelona, which were among our favorite sights; (2) his fast and furious pace (needs more down time); and (3) meager explanations for certain sights. Nonetheless, Spain is great, go there! 1 of 3 people found the following review helpful. This guidebook is o.k. By A Customer Rick Steve's Guidebook does have great ideas however, I am disapointed that there is no mention of Northern Spain (e.g. Santiago). It is a bit disapointing when he notes an itenerary for a three week stay in Spain but makes no mention of Galicia. Not only that but the tone is very apathetic towards Spaniards versus let's say his guidebook to Germany. Nonetheless, the book is informative for those who are going for 1 or 2 weeks... 1 of 1 people found the following review helpful. This is an important Tool By A Customer I found this guide VERY knowledgeable and made my trip to Spain and Portugal really fun and efficient. The only critique is that Rick doesnt mention visiting the new Guggenheim Museum in Bilbao Spain, it was truly magnificent. This is a perfect guide for Students and more thrifty travellers who want to see the world and like pleasant accomodations.

Stevens points out the most delicious paella in Sevilla, the best folk art on the Portuguese coast, and the most economical ways to experience flamenco, bullfighting, and the Prado. 30 maps.
