I would have liked a slightly more detailed map, but I was able to organize our plans using this map (and comparing to online maps zoomed in). I have an expectation that our phones will not be connected for good portions of our trip. The map is a good size to carry with us on our future adventure and is somewhat rugged, but I do expect the map to begin to tear as we use it frequently.1 of 1 people found the following review helpful. Four StarsBy PabloGSlovenia detail is a bit spare0 of 0 people found the following review helpful. Good detail but not really good like Regional mapsBy C. FarmerGood enough detail for driving on main and secondary roads. Not enough detail provided by regional maps you can get at gas stations while in Austria.

With a 1:800,000 scale (1cm to 8km), this road map features six city and town plans, and a place name index.
