From Geo Center UK : Romania GeoCenter Euro Map (GeoCenter Maps) before purchasing it in order to gage whether or not it would be worth my time, and all praised Romania GeoCenter Euro Map (GeoCenter Maps):

Part of the renowned Geocenter Euro Country Map series, this updated map of Romania and Moldova is both informative and easy-to-use. This cartography is ideal for planning routes through the countries and features a city plan of Bucharest. This updated cartography now features grid references in the margin to aid quicker orientation. Additional colour changes to the mapping make transport networks clearer than before. With a scale of 1:800 Thousand and a legend in 8 languages, this is a comprehensive and indispensable road map. This map also includes a comprehensive index booklet as well as featuring tourist information and places of interest. Information is also provided on hotels, restaurants, museums, theatres, parks and gardens, with tourist attractions clearly indicated and public transport systems marked.
