Marco Polo Travel Publishing : Romania Marco Polo Map (Marco Polo Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Romania Marco Polo Map (Marco Polo Maps):

We went on a vacation through Transylvania, and compared to the map of the other people in my group, this map had indications of the scenic routes (green) as well as the points of interest to tourists flagged with 3, 2 or 1 star, which the other maps did not have. So this pointed us to a few more things of interest nearby that we would have otherwise missed. Some of those points I did not see even see in travel guides (e.g. Rapa Rosie - the red canyons in Alba County), but after googling realized that yes they were worth a detour. Also, I thought it had good up-to-date information. The Bucharest -> Timisoara highway is indicated on the map with dotted lines where planned and solid lines were completed, and the completed / not completed info was not vary far out of date. 0 of 0 people found the following review helpful. but whatever the reason it wasn't always easy to reconcile the villages we were in with the ...By Donald SchaefferThere might be thousands of little villages too small to be on the map, but whatever the reason it wasn't always easy to reconcile the villages we were in with the map. Highly recommend having a GPS. One other complaint was a road that appeared to be relatively major on the map but was incredibly rough, keeping our speed below 20 km/hour. 1 of 1 people found the following review helpful. Big Map for a Small CountryBy StreatorWe drove around Romania for a week and found this map (though slightly outdated) to be a BIG help getting around.
