Cathryn Kemp, Steve Kokker : Romania Moldova (Lonely Planet Travel Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Romania Moldova (Lonely Planet Travel Guides):

0 of 0 people found the following review helpful. Ok book. No pictures By Jenny Vega No pictures. Ok book but I would try to find a better one 0 of 3 people found the following review helpful. When I was off to Romania . . . By R. V. Deshaies. . . I found there was very little available in guidebooks. However, the Lonely Planet people did a good job with this difficult country. I appreciated the concise information, and I suppose it is a miracle they gathered as

much info as they did!16 of 18 people found the following review helpful. This book saved my #\$\$!By R. CottrellThis book is great.Last summer I took my first overseas trip in my life. Being a lazy American, I did no real research and I landed in Bucharest Romania with nothing to fall back on but the 3rd Edition of Lonely Planet's "Romania Moldova."I was supposed to meet a friend who was traveling from Russia, but long story short... I was not able to meet up with him until 5 days later. I did not have any travel itinerary but this book allowed me to make the most of those 5 days by myself.After those first days on my own, I finally met my buddy in Budapest Hungary, but then we traveled back to Romania for another 5 days or so.The information in this book made it possible for me to have the trip of a lifetime. The only thing wish I did differently was take a Romanian language book with me.That said, this book was hands down an invaluable asset to me.I used this book to visit Bucharest, Deva, Hunedoara, Sighisoara, Sibiu and Poienari. (Except for BucharestI did not know anything about these towns and cities but this book helped me find them)Traveling in a country where I could not speak the language and very few people could speak English was a tough experience for me, but this book helped make my trip an awesome adventure.If I every make it back to Romania, I will be taking this book with me!

This guide to both Romania and Moldova provides detailed coverage of the magnificent Carpathians and Dracula's homeland, Transylvania.
