**Amco Press : Romania Road Map** before purchasing it in order to gage whether or not it would be worth my time, and all praised Romania Road Map:

Folded road map in color. Scale 1:750,000. Distinguishes motorways, European roads, national roads, county roads, roads under construction. Legend shows railways, airports, frontier crossing points, harbours. Legend in 2 languages (English and Romanian). Index of places inside.
