I have been to Rome 10+ times and ALWAYS bring this book with me when I go. I find it the most authentic and filled with the best ideas. I also like the realistic range of prices for restaurants and activities. This book will help you find the REAL Rome - not just the tourist areas. I highly recommend it. If you like/need lots of photos, this book is not for you - but the info is wonderful.4 of 9 people found the following review helpful. Decent pre-trip read but not worth taking with youBy Terry SmithThis book has solid information and is well-written but that doesn't keep it from being BORING! The only pictures provided are in a few pages at the front of the book. The maps are not good enough to travel with. It makes a decent pre-trip read (or to at least browse through when planning your trip). However, don't plan on traveling with this book. The National Geographic or Eyewitness Travel Guides are far better. The best of the best are the Rick Steves travel books which do not have pictures either but are updated every single year with new hotel and restaurant information plus great maps.1 of 1 people found the following review helpful. Excellent guide for the experienced travelerBy A. MocenigoI always find the Cadogan Guides to be very well written and in particular an excellent source of information for food and lodging in any city. I have never been steered wrong by them and their guide to Rome is no exception. I also find their historical information to be entertaining as well as informative.If you are an experienced traveler and are looking for something that is a step up from the "Let's Go" guides, yet not as stuffy as say, Fodor's, then these are the guides for you.

Cadogan's guide to Rome provides a truly accessible way into the heart of this enthralling city. The unique introductory full-color section is packed with itineraries--for example, an exploration of Ancient Rome or a taste of the unexpected away from the tourist crowds. There are ideas for day trips outside Rome, and walks that give visitors a true taste of the city. All attractions and listings--the fullest listings of any city guide to Rome available--are clearly marked on the maps, allowing you to find your way easily around the narrow, bustling alleyways and grand piazzas. The expert authors write with assurance, experience, and charm, providing a wealth of engaging cultural and historical knowledge, along with anecdotes and colorful stories.

"Standouts these days are Cadogan Guides...sophisticated, beautifully written." --American Bookseller "Understated, humorous writing." --New York Daily News "Opinionated, well-informed." --The Independent (UK)
