**AAA : Rome (AAA Spiral Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rome (AAA Spiral Guides):

Very good recommendations for places to see and eat, and also avoid. Time allotted to certain sights is nowhere near enough, particularly the Colosseum and the Roman Forum.1 of 1 people found the following review helpful. Great content, so-so mapsBy L. CailleteauThis is a great Rome book. It's organized by neighborhood (i.e. Ancient Rome, Heart of Rome, and Vatican) and spends a great deal of text/photos on what it considers must see attractions in each area as well as ancillary attractions in the same area. Call me elementary but I also like the many color photos. If you are planning your own tour, this can help you quickly rule in (or rule out) things that strike your fancy. Furthermore, this book has great insider tips. Any book can tell you how to get from the the airport to Termini. This one tells you the best time to visit places and notes things that you might overlook when you are there.The only real negative in the book has to be the maps. While there are good maps for each individual area profiled in the book, there isn't a good comprehensive map. Nor is every street mentioned in the book included in its map index. Something else I would like to see in future editions is a map of the metro (subway) lines laid over the city map. This allows you to tell what exactly where you are getting on/off the metro.Overall, a good book. Comes in a nice handy travel size. Could fit in a decent sized pocket. Highly recommended.

Truly like no other travel books, the AAA Spiral Guides combine cutting edge design, a thoroughly market-tested approach, and the enormous trustworthiness of AAA. Spiral Guides are designed to look good, feel good and be fun to read. They're different and instantly recognizable with in-depth coverage where necessary, but without information overload. AAA Spiral Guide Rome features valuable information on everything from the Colosseum and the Pantheon to the Trevi Fountain and Vatican City.
