From Lozzi : Rome And The Vatican: New Guide In Colour With A Monumental Map Of The City before purchasing it in order to gage whether or not it would be worth my time, and all praised Rome And The Vatican: New Guide In Colour With A Monumental Map Of The City:

A very nice guide book with a fold out map of Italy and a larger detached map of Rome and the Vatican. The book has many illustrations in color and gives lots of information on the history, and places to visit. There are also 9 suggestions of itineraries.
