No need to wrestle with a huge open map -- the Falk patented folding system allows you to view the desired area in a smaller size format. I've used Falk maps extensively while living overseas, and purchased the Rome map for an upcoming summer trip. You get complete information on bus, tram and subway lines, and other types of information important for navigating foreign cities. Highly recommend!0 of 0 people found the following review helpful. Best City Map ever!By MarilynAnnI have used this map since I lived in Rome in the late 1970's - and was so happy to find updated ones with the metro lines and pedestrian zones. No need to stand on a street corner and unfold a large map - and every little street in the city is on this map. It fits in a purse, and is easy to read and manage.
