From Insight Guides : Rome Insight Pocket Map (Insight Maps) before purchasing it in order to gage whether or not it would be worth my time, and all praised Rome Insight Pocket Map (Insight Maps):

4 of 4 people found the following review helpful. Not at all useful By Don GI found this folding map to be too small, and very inconvenient to use. Others were much better. 1 of 1 people found the following review helpful. Not enough detail By Kathryn After a week of struggling with this map I finally gave up and bought a new one. The format is great. It's very easy to keep in your pocket and unfold discreetly. Unfortunately, because of that the map doesn't have much detail, and doesn't list the names of many smaller streets. If you want to get off the beaten path at all this map is useless. There are much better options.

This innovative map collection provides all the essential travel information for the active traveler or map user. With its unique design, it unfolds and refolds effortlessly to fit in your pocket. Features include: area, street and transportation maps, top 10 sights, eating and shopping recommendations, street and sights index, tear-resistant folds, high-quality laminated cover and compact size.
