**Marco Polo Travel Publishing : Rome Marco Polo Guide (Marco Polo Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rome Marco Polo Guide (Marco Polo Guides):

Famous people (like the Obama family) have been to Gelateria Giolitti; or a visit to Atelier Canova for a bit of sculpture with your coffee, Canova's erstwhile studio. There are lots of suggestions to get a feel for the city in just a few days, in a neat format that will fit in a bag. Good map.The Marco Polo Guides have Insider Tips which offer something a bit off the beaten track, something unusual and the ones we have tried have all been interesting. Next time I go to Rome I really would like to eat as an Italian, inside someone's home with ceneromane, which we just didn't have time to try on the last visit.We took one of the walking tours which again introduces the average tourist to something just a bit off the beaten track. So much on offer, so little time. I will be back to this wonderful city!!1 of 1 people found the following review helpful. Don't leave home without it!By Austen FanThese Marco Polo Guides are the BEST! - My friend (from Germany) buys them every time we travel somewhere together! And I have to say there is more usable info in these than any I have used in the past- they are also updated much more often- keeping the information relevant! The insider tips (one of there features) are never a disappointment!!!!I'm picking a few more for other cities I am planning to visit in the coming year.
