Roman EnvyBy CustomerAs a student who once majored in Art history although never having been to Rome. I felt jealous to have this much information on a place I've always dreamt of going. If I ever get the chance I'm making sure to bring this book as an added reference point. it contain information on cafe's, hostels and various advice how to get there and basic travel within the city as well peak and off season periods of Rome which is always good to know. I began to crave coffee and chocolate and real pizza. not if i would go to the Vatican but i know I would want to see the Sistine chapel. if you want a clear cut straight to the point of facts and advice. I would highly recommend this wonderfully engaging guide to anyone going and your lucky for that adventure.2 of 2 people found the following review helpful. In love with Rome!By MartaI am in love with Rome. I have lived in Italy in my 20ties, and so I have been to Rome many times. I am lucky to have Italian friends there and they would always show me around. I have always had a great time, loved the culture, the people and found the "Rome energy" amazing. I found this guide and picked it up to refresh some of my old memories. I can tell it's clearly written by someone who knows the city and the culture really well. I enjoyed many historical and cultural facts that to be honest I did not know...now I feel like going there again. I agree with the author- the way Italians drive (especially in Rome) can be scary hehe...!The European airlines recommended in this guide- easyjet- yes, wizzair- yes, but I personally don't recommend ryinair...
