Karl Baedeker : Russia: A Handbook for Travelers (A facsimile of the original 1914 edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Russia: A Handbook for Travelers (A facsimile of the original 1914 edition):

1 of 1 people found the following review helpful. FascinatingBy greenhornetLore has it that this book nearly bankrupted the Baedeker's co. and it's no wonder: really lavish in a way that books aren't anymore. Full of information galore and the incredible Baedeker maps. If you want to see Russia before Lenin and co. went to work, here it is. It's amazing how true culture (oh, what a mocked word that is today!) was held in such esteem at one time. Great book to read! Of course you'll probably never get hold of an original, but this facsimile will do.0 of 0 people found the following review helpful. Fascimile copy of the 1914 editionBy Girl Friday ReaderBaedeker's Handbooks, meticulously detailed travelers handbooks of the pre-WWII era, are highly sought after by collectors and couch-travelers alike--the rare, hard to find guidebook to Tsarist Russia being the most popular. For anyone--scholar,author,traveler,historian,etc I highly recommend getting your hands on a copy of a Baedeker of yore, sit back and enjoy the reading.12mo. pp lxiv, 590, with 40 maps and 78 plans
