Winston Churchill's much-quoted line that the world's largest nation represented "a riddle wrapped in a mystery inside an enigma" is as true today as it was back then. You won't get lost. Moscow is the rapidly beating heart of the "New Russia," where Asia and Europe combine to create a boisterous, enigmatic metropolis on a grand scale. St Petersburg, meanwhile, with its living film-set of palaces, cathedrals and waterways, is the grandest and most European of Russia's cities, yet still retains a deeply complex character.
