Meredith Bowman, William Kerrigan, Alicia Seng : Salt Fork State Park (Images of America: Ohio) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Salt Fork State Park (Images of America: Ohio):

0 of 0 people found the following review helpful. Good look at a lost community By Cantabrigian64 I really enjoyed this book since my ancestors lived in the Salt Fork area for over a century, leaving only when the lake was created. There are lots of great old photographs of the area and its residents. One fault I found: the GPS coordinates for locations mentioned in the book are totally wrong.

Salt Fork State Park is Ohio's largest park, covering about 20,000 acres of rolling, forested terrain just eight miles northeast of Cambridge. Despite the park's timeless wilderness feel, for almost 150 years farmers worked this land, many occupying the same property for five generations. In the 1960s when the park was created, evidence of that agrarian past quickly receded. Over time, new forest reclaimed fields and pastures, and wildlife returned in abundance. All but one of the region's farms, mills, covered bridges, and schoolhouses were removed?the Kennedy Stone House Museum lives on as a reminder of the region's past, dedicated to preserving the stories of the families who once made a life on these lands. Salt Fork State Park celebrates the heritage of the parklands, offers glimpses into the lives, labor, and leisure of its residents, and points the curious explorer toward some of the many remnants of the park's agrarian past.

About the Author Meredith Bowman and Alicia Seng are senior history majors at Muskingum College. William Kerrigan is associate professor and chair of the Department of History at Muskingum. The images in this book come from some of the many families who once made their lives here.
