purchasing it in order to gauge whether or not it would be worth my time, and all praised Say It Right in Dutch: The Fastest Way to Correct Pronunciation (Say It Right! Series):

I bought 4 different Dutch language books, this one is probably the worst out of the 4. Sometimes the pronunciation they describe does not make sense to me nor my husband. The facts in the books are a fun extra, but some of them are not even true, which annoys me. Very disappointed in this book.2 of 2 people found the following review helpful. An o.k. place to start but very limitedBy Brian D. MooreI think I would be better off learning the international phonetic script and using that rather than the adapted script used in the book. There are a few basic phrases in the book but I was hoping for a phonetic translation of key vowels and consonants and their clusters.0 of 0 people found the following review helpful.
