Patrick Maheñ• : Scotland: A photographic journey before purchasing it in order to gage whether or not it would be worth my time, and all praised Scotland: A photographic journey:

0 of 0 people found the following review helpful. Four StarsBy William Sandlin1 of 1 people found the following review helpful. Plisson delights us againBy Julie B.this is a 'coffee table book' filled with photographs that will keep you turning pages from front cover to endpapers. It is many cuts above the typical coffee table book. I can't believe the used prices I see here for it. My son saw it sitting on the kitchen table and picked it up and said, 'wow, if the pictures inside are as good as the one on the cover, this must really be good!' - and he would not normally pay any attention. I'm so grateful to Mr. Plisson that he turned his attention to the subjects of these books. I'm so grateful to get to experience these spectacles through the lens of his camera. What a privelege.
