against my better judgement because other raters said it was written at a 4th grade level.....since I need it for a 2nd grader, I thought I'd try it. But it is horrible, I don't know how anyone can live with themselves submitting such a piece of garbage for sale. Misspellings, incomplete sentences, sentences that don't make any sense. Its like the person does not even speak English. I bet the facts are not even accurate! I want my money back.0 of 0 people found the following review helpful. Don't waste your money!!!!By mypepitaCan I give zero stars? It is supposed to be written at a fourth grade level but I think it is written by a fourth grader! Or a manboy with a fourth grade level education. It is terrible!! I returned it. My son (9) could write a better book!0 of 0 people found the following review helpful. scamming piece of junkBy Kcb11377Is this book a joke? it is as if someone printed out a poorly executed google search on Scotland with random poor quality images. Oh wait, that is EXACTLY what this is. I am guess that also applies to the author pic.
