before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scotland Executive [Tubed] (National Geographic Reference Map):

1 of 1 people found the following review helpful. and I wanted to have a beautiful map of Scotland on the wall to see as ...By S DMy husband and I are going to Scotland this summer for two weeks, and I wanted to have a beautiful map of Scotland on the wall to see as I'm planning our trip and to have as a gorgeous keepsake on the wall. I purchased a frame for it and it is beautiful. The colors are muted and look vintage on the wall, and it is such a large map that I can really see all the little towns and lochs everywhere. The only drawback for the map is that it is not standard frame size, so you have to get a custom sized frame or use a make your own frame kit. Overall, this map is gorgeous and a perfect keepsake for planning a trip to Scotland!1 of 1 people found the following review helpful. Great mapBy E. HamiltonGreat map for office or home. Applicable and decorative.0 of 0 people found the following review helpful. Large and attractiveBy S. BakerI bought this map for my sister for a present. She's been doing genealogy work and traced many of our ancestors back to Scotland. The map had a lot of extra room for me to make a lot of notes and then

draw lines to the towns I was referring to. She loved it.

National Geographic's wall map of Scotland is one of the largest and most detailed maps of the country. The Executive map of Scotland uses an antique-style color palette and stunning shaded relief that provide a richness perfect for any decor. This map includes hundreds of named places including primary and secondary towns, counties, political boundaries, infrastructure, and selected historical sites. Scotland is shown in its entirety including the Highlands, Southern Uplands, Isle of Skye, Outer Hebrides, Inner Hebrides, Orkney Islands and the Shetland Islands (shown in an inset map). The nine political council areas of Scotland are also clearly identified. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:650,000 Sheet Size = 30" x 36"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
