Scotland of Old Clan Names MapBy Jason CratonThough this is not a book, it is packed full of info for anyone wanting to know more about Scotland of Old. It is giant in size and full of color. One side has a map of Scotland with the old clan territories and the other side has all of the old clan crests. This is a must have for anyone with Scottish heritage or for anyone who is interested in Scottish history. I live in the United States and the only place I was able to find a copy was in Canada. My uncle picked one up while in Europe. You can pick one up while sitting in front of your computer!2 of 4 people found the following review helpful. more informative 'legend' is requiredBy S. McLarenI feel that there should be a more developed 'legend'. all the family names are there but there is no grid markings (like you would find on a street map) to help you locate the family name. it would be a helpful tool and make the map more user friendly.thank you

Pictorial map showing the arms, official insignia of the Scottish clan chiefs, and their crests, which are encircled with each chief's motto or slogan.
