**ITMB Publishing LTD : Scotland Travel Reference Map 1:370,000** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scotland Travel Reference Map 1:370,000:

0 of 0 people found the following review helpful. Sturdy handy map, perfect for Scottish weatherBy Laura C. ElliottI am glad I got this map for our month in Scotland in 2015. Easy to read, easy to unfold and fold, and better yet, made from a plasticized paper that protects it in the rain! Was hoping to get an updated one for our next trip but sadly I haven't found a current one.0 of 0 people found the following review helpful. Five StarsBy Cynthia K.very detailed map. it's all you need.

Anyone who has been in this business for a few years remembers Ordnance Survey and their brilliantly detailed artwork. They should also remember that OS guarded this artwork religiously. That all changed when the then head of government in the UK, one soon-forgotten Gordon Brown, decreed that commercial OS artwork had to be discontinued and artwork had to be made more freely available to users. I expected an outpouring of new artwork by private UK firms. It did not happen; in fact, the range of travel maps decreased dramatically. However, OS artwork is still an excellent source of mapping artwork. This is a wonderful double-sided, detailed map of Scotland. It is both extremely detailed and accurate. We have added symbols for parks, historic sites, battlefields, country hotels, and anything else that we think would interest visitors. In order to portray Scotland to best scale advantage, the only inset included with this map are those of outlying islands, such as the Shetlands. ITMB also publishes a separate, less detailed map of Scotland on one side with Edinburgh of the other side. The new Scotland map has also been upgraded to being printed on plastic paper for durability. It also makes a good umbrella for when the Scotch mist falls! By the way, our forthcoming map of England and Wales should be available in about two months.
