Superlative By Scoglio From the writing to the splendid photographs to the book production itself, this is a superlative volume without peer. Sadly, it is OOP but, if the subject matter is relevant to your interests or to your métier, this title mandates acquisition at any cost.

The first book on Scotland to capture not only the beauty of its spectacular landscape and architecture but also to tell about the history, traditions, and culture from the perspective of a witty, knowledgeable insider. Through lush gardens, sweeping landscapes, and 15 of Scotland's less well known houses, Scottish Country reveals an identifiably Scottish style. Illustrations.
