before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scottish Highlands - The Hillwalking Guide: British Walking Guide (British Walking Guide Scottish Highland The Hillwalking Guide: Planning, Places to Stay,):

4 of 4 people found the following review helpful. Walking the Scottish Highlands By Scott M. Kruse A walking emphasis on Scotland's highlands. Not thorough, but a good introduction. Great reading, essential maps, identifies trailheads and routes. Useful

This guide covers 81 hills and mountains in the Scottish Highlands. Detailed walking maps in the Trailblazer style including tricky trail junctions, walking times and points of interest written onto the maps themselves. It also details places to eat, local sights and a full-colour flora identification section.

"...the Trailblazer series stands head, shoulders, waist and ankles above the rest. They are particularly strong on mapping...."--The Sunday Times (UK)
