Jennifer Drake, Sarah Feltham : Scotty's Postcards from Rome before purchasing it in order to gage whether or not it would be worth my time, and all praised Scotty's Postcards from Rome:

I would like to see a replica of the bear.0 of 1 people found the following review helpful. Postcards from Rome - via Boulder, COBy SueOn a recent trip to Dallas, a friend gave me a copy of Scotty's Postcards from Rome. When I got back from Dallas, I had intended to introduce our youngest (5) to Scotty. But, I left the book on a table and forgot to show it to him. The next evening, he had discovered Scotty on his own and was flipping through the pages looking at the pictures (he's only just starting to read, so it was the pictures that pulled him in). I read it to him that night and it became his new favorite (competing with Curious George, Where The Wild Things Are and (sorry) Who Pooped In The Zoo?). He walked around with it for three days on his hip and has asked for it every night.1 of 2 people found the following review helpful. Scotty's Postcards from RomeBy BanzaiLoved this book! I wish it was around when my teenage son was younger, because there's no way I could've gotten him to Rome without it. It was filled with helpful information about the city, but in a fun way that relates to kids. The pictures were colorful too. I hope there's more of these to come for other cities!

Planning a trip to Rome? This full-color picture book will inspire children of all ages to visit Italy's capital city. An entertaining narrative is provided by a tiny stuffed bear named Scotty who sends postcards to his owner's nephew,

detailing fun adventures and teaching him about the geography, food, language, history and popular sights of the Eternal City. Of course, being a small bear in a foreign city, Scotty sometimes gets a little too excited and curious, so he finds himself in some awkward predicaments. In the end, though, as all travelers come to realize, sporting a smile and being courteous, goes a long way. Join Scotty on his first adventure as he explores the charming city of Rome.
