Scotland of the Anassa by Mairi Hedderwick
By Lyn Bell
Because the book is excellent! The only disappointment was the fact that the copy we had seen had included foldout watercolour prints of the watercolours the author had drawn, and the copy you sent to us were small prints of the authors work.

Filled with frank and fresh observations on life, land, and seascape—and augmented with drawings and fold-out watercolors—this is an exquisite account of a journey around Scotland via yacht. Sailing through the Caledonian Canal to the fjords of the west and visiting, among others, Lochs Linnhe, Etive, Ailort, Moidart, Nevis, and Leven, this narrative comments on various topics, including the history of landscape painting in Scotland, the shipping forecast, and fish farming. This six-week coastal voyage is a stunning tale indeed.
