J. M. Fernandez Gaitan : Segovia in Your Hand before purchasing it in order to gage whether or not it would be worth my time, and all praised Segovia in Your Hand:

Segovia, the roots of Spain, cradle and mirror of Art, immense in its landscape, castle of the Castiles, a haven of churches and monasteries, the infinite dream of poets and painters, the incomparable forge for robust characters and clean humanisms, the irreplaceable crossroads for all historical highways. All of this and much more is Segovia to someone who knows her well: Segovia in Your Hand.
