James Henderson : Sent Forth a Dove: Discovery of the Duyfken before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sent Forth a Dove: Discovery of the Duyfken:

2 of 3 people found the following review helpful. Building a Replica Ship By A Customer Sent Forth a Dove provides an insight into the first European ship recorded in history to visit Australia and the work by a team of people in Fremantle, Australia to build a replica of the ship. This book brings together little known parts of the Duyfken story, including background history of the Dutch East India Company (VOC). A good read for students of maritime history,

shipbuilding and the Aboriginal history of Australia.
