Whether you've spent lots of time in Bavaria or are a newcomer, these drives are almost all excellent, off the beaten track and easily navigated. The maps included are more than adequate, it's almost impossible to get lost. The authors throw in little tips, such as nice inns to stay at or good restaurants along the way. I've spent a lot of time driving in Bavaria and Austria and this book was a truly pleasant surprise. If you love Bavaria and you like beautiful drives, I highly recommend this.1 of 1 people found the following review helpful. Great DrivesBy C. JohnsonI lived in this area for 3 years and traveled it on my own quite a bit. This year I went for a vacation and took along this book. I loved the drives that were off the beaten track and the tips on more scenic ways to get to a destination. I would recommend this book for anyone traveling in the area and know that the suggestions are good. I also like how they rated each drive by different scales on scenery, history, castles, etc. It is a nice recap of the area and helps you select where you might want to go.
