**ITM Canada : Slovenia 1:200,000 Travel Map** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Slovenia 1:200,000 Travel Map:

5 of 5 people found the following review helpful. Perfect Map for CountrysideBy Nana BirdThis excellent map has plenty of detail for traveling back roads as well as highways. It has the added bonus of including a detailed map of the full Istria peninsula which is better than found on Croatian maps. Good detail is also provided for adjacent areas in Italy and Austria. A major disadvantage is that it lacks an enlarged area map of Ljubljana. As a paper map, it started to show a bit of wear and tear on the creases after several days of heavy use.2 of 2 people found the following review helpful. No route numbers, had to get another map in SloveniaBy Jessica WinslowThis map is not very helpful because it does not include the route numbers. This makes navigation difficult. When we got to Slovenia we had to buy another map to replace this one. So it is basically not worth buying this map.0 of 0 people found the following review helpful. Which way to Ljubljana?By Mister TomatoeThis map and travel guide came in very handy as my wife and I navigated and traveled this beautiful country. We just hop in a rental car without any GPS and head out seeking adventure.
