Though it was published in 1992 to accompany the Olympics, you can brush that aside without any loss and use this well written guide along with its accompanying maps, and drawings to significant advantage. The personal and knowledgeable style that the guide is written in has been a good companion to me on my visits and I would highly recommend it.

Continuing the travel series launched with "Slow Walks in Paris", this guide takes the reader to Barcelona, the capital of Catalonia. The author charts a selection of strolls along famous avenues, through the 13th-century Gothic city and into the Picasso and Miro museums.
