We've been to this part of Ireland twice before and we can't believe how many places we missed because we didn't have a guide like this with us. We look forward to using it in a couple of months.

Typically superb Cadogan guide By JayBeI met up with friends in Kerry this past summer, and based on previous experience with Cadogan guides, ordered this one. Excellent detailed information, and as is typical for Cadogan, you'll find things that are unusual that other better-known guides don't have. I also often get Blue Guides, but they don't cover restaurants and places to stay, which the Cadogans do, and generally their descriptions are very accurate and it pays to follow their advice. Highly recommended.

Ireland's most popular holiday region is explored in Cadogan's expanded new edition, encompassing the main area of the province of Munster. From King John's Castle and Moll's Gap to the dolphins of Shannon Estuary, Irish-raised Catharina Day reveals the tranquil pleasures of counties Cork, Kerry, Limerick and Clare. Guest writers contribute expert sections on fishing and golf, and the guide contains a special piece on the popular pursuit of sailing around the southwest coast. Now fully redesigned, this new edition contains the most up-to-the-minute practical information and listings, along with color photographs and maps. Cadogan offers practical advice on tracing ancestry, tales of Celtic myth and legend, traditional Irish recipes and a guide to the best pubs, romantic hideaways and family-friendly hotels in the land.

'Veritable page-turners . . . excellently written, bursting with character' - Holiday Which
'It's difficult to praise the Cadogan books too highly...good writing, amusing comment and invaluable advice' - The Independent, UK
