**Baedeker : Spain Baedeker Guide (Baedeker Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Spain Baedeker Guide (Baedeker Guides):

The information and photographs are excellent. I would have given it five stars for content, but for one problem. Baedeker guides in the past have used larger fonts and were, therefore, easy on the eyes. The font has now become so small that an old duffer like me has trouble reading it.

So out comes the magnifying glass! Having said that, Baedeker Guides are otherwise excellent. 0 of 0 people found the following review helpful. Key to Spain By Richard J. Cummins We have used Baedekers in the past (especially the one for Brazil) and they are uniformly excellent. This one is no exception. It contains the right mix of cultural and practical information. The Michelin guides are the only competition. The only negative is that they are heavy to carry, a consequence of their being sturdy. 0 of 0 people found the following review helpful.
