ITMB Publishing Ltd. : Spain Portugal Map Pack before purchasing it in order to gauge whether or not it would be worth my time, and all praised Spain Portugal Map Pack:

From Roman times, Spain and Portugal have been popular with visitors. The Romans established retirement communities for soldiers, the Moors, delighted in the warm climate, and modern-day sun worshipers dominate the winter months. Our map of Spain and Portugal (1:900,000 scale) on waterproof paper is quite popular. Why not expand upon travel benefits by combining it with other ITMB titles that offer more detailed coverage of the region? Portugal occupies the western third of the peninsula and this map not only shows the country to advantage but adds an inset map of the Canary Islands. Andorra is one of the smallest countries in Europe, but has survived centuries of competition from more powerful neighbours (France and Spain) by being more useful to them as a separate entity. I first visited this little mountainous principality in 1963. Its charm is in its relative isolation. As a duty-free entity, it attracts shoppers seeking bargains, but its non-industrial environment makes it ideal for hill hiking in the summer and skiing in the winter. At 1:40,000 scale, this map covers all the roads and attractions of a very unusual part of Europe. Portugal Travel Reference Map 1:400,000 scale 1st Edition, place names district printed on reverse side. This large sheet of paper shows lovely Portugal to good advantage. The road and rail network is shown in great detail, and the map includes insets of the Azores Islands, Madeira, and the cities of Porto and Lisbon. Map size: 55"X38" In addition, in this Map Pack, we include urban maps of the largest and most significant city in Spain, Barcelona 1:12,500 scale 1st Edition. Barcelona, as the capital of Catalunya, is an independent-minded centre that tolerates the rest of Spain but prides itself as being unique. As a centre for visitors, Barcelona offers a lot, and it is all on this map. The Ciutat Vella is the heart of the city, and the Montjuic park and fortress just to the south, its lungs. The map extends well past the famous Sagrada Familia cathedral to the by-passing autoroute. All 3 maps would cost almost \$38 to purchase separately; the Map Pack offers them for \$25.95, which I think everyone would agree is a bargain-based price. All are current editions and are available to stimulate travel to this part of Europe during economically-difficult times.
