**Linda Cannon : Stained Glass in the Burrell Collection** before purchasing it in order to gage whether or not it would be worth my time, and all praised Stained Glass in the Burrell Collection:

0 of 0 people found the following review helpful. Great for the tourist!By virginia RaguinFascinating book. Despite it focusing on one distinguished collection, it includes a broad sweep of historical periods, techniques, and different patrons. We find heraldic badges, moral stories, biblical narratives, saints' lives, portraits, and secular events such as guild celebrations. The book is small - and therefore very inexpensive. The author knows her stuff. Too bad these beautiful images could not be larger.

An illustrated guide to stained glass at the Burrell Collection in Glasgow. Basic techniques, detailed descriptions and explanations of sources and subjects are accompanied by text which highlights the artistic, technical and historical importance of some of the major pieces.
