Abrams : StyleCity Barcelona before purchasing it in order to gage whether or not it would be worth my time, and all praised StyleCity Barcelona:

0 of 0 people found the following review helpful. Beautiful photos, good references to stores and restaurantsBy Jay Allen EisenBeautiful photos, good references to stores and restaurants. But no maps to show you just where they are and how to get there. We used it to supplement the Lonely Planet (excellent) guide as a double-check on its recommendations. A bit heavy, too, on heavey-weight glossy paper, so it adds a bit of heft to what you're carrying.

A guide to the sun-drenched Spanish city of Barcelona for the sophisticated traveler offers culturally savvy advice on the city's most noteworthy restaurants, shopping opportunities, museums, accommodations, and sightseeing locales. Original. 15,000 first printing.
