Best walking guide to the Amalfi CoastBy d mahanStanding the in overly touristy center of Amalfi, my husband and I wondered why we had included the stop on a vacation to Italy. Then, we found this Sunflower Guide, and realized that if we followed the walks, many starting just a few hundred feet out of the tourist throngs, we could discover a beautiful, peaceful, unspoiled part of one of the most glouious coasts in the world. We ended up spending 2 weeks in the region, doing a different Sunflower walk each day. It was one of the best vacations we have ever taken, in large part thanks to this guide book.2 of 2 people found the following review helpful. Essential guide for hiking the Amalfi coast areaBy Monty VanderBiltThe Amalfi coast has fairy land towns hugging steep cliffs rising out of the sea, and tourists are attracted in droves. But if you go early in the year before high season starts on April 1, you'll enjoy fewer people, cooler weather, less traffic, and cheaper prices. The cooler weather is relevant here because in the summer it can be uncomfortably warm for hiking. And taking some walks along the cliffs in this area adds a whole new dimension to the scenery, as well has helping you work up an appetite for that next delicious Italian meal.I especially appreciated this guide because the author added enough commentary and opinion about each hike segment that it was possible to choose the ones I'd enjoy the most, and make the best use of the limited time we had on our vacation. There are hundreds of ways of combining various walk segments and the organization of this book makes it easy to customize a days outing to fit your schedule and energy level.The book has a basic map included and the detailed descriptions will keep you on track, but adding a trail map to your kit is advisable if you are going to include walks to the higher elevations which are not covered, or want to do some exploring on your own. The best trail maps are available in English or Italian at carteguide.com (not available on when I wrote this)
