2 of 2 people found the following review helpful. Excellent fun and fascinatingBy Jane Wilson-HowarthI love this book. It is peppered with charming traditional stories, folklore, and quotes to really bring the landscape alive. And the repeated sections throughout for nature-lovers and sporty kids are also just what the touring family needs.I very much hope someone will ask this author to update this excellent guide and bring out a new edition since it is becoming scare and difficult to find.6 of 8 people found the following review helpful. more useful information neededBy

familyofballers Would like to have seen more blurbs on the side bars about what to pack and more stories, legends and history to tell the kids. There were some, but needs to be more. Also, would like to see a more eye appealing layout that perhaps kids would be able to follow along w/ while in Ireland.

All you need to make the most of a family trip to Ireland – without breaking the bank! The tranquility of Ireland's breathtaking scenery and liveliness of its people encourage fun and adventure, whether travelers enjoy beachcombing, hill trekking, horse riding, dolphin watching, visiting zoos and folk museums, or indigenous sporting events like hurling. From Dublin to Donegal, Cork to the Kingdoms of Down, city and country activities are assessed and recommended, while stories and games bring sights alive. Practical advice enables parents to relax in warm, welcoming atmospheres that are amenable to families while they tune in to a unique way of life.
