Andrew Hood : The 2004 Tour de France: Armstrong Rewrites History before purchasing it in order to gauge whether or not it would be worth my time, and all praised The 2004 Tour de France: Armstrong Rewrites History:

7 of 7 people found the following review helpful. More than just a race. By John Matlock At first glance this is just a book on a race, a bicycle race at that, not something typically near to American's hearts. But this was the 2004 race when something happened. And that something was Lance Armstrong, a Texan, a cancer survivor, and already five time winner of the race going for an unprecedented sixth victory. Of course you know that he won, just look at the title of the book. His winning is in the details. How does he train, the unconventional climbing rhythm, his single minded focus on this race, and this race alone is seen as an insult to the rest of the sport. This book is guaranteed to make even

the least interested cycling fan perk up in interest. It's well illustrated, well written and covers a fascinating individual.

Recapping all the grit and glory of this year's crowning cycle event, the editors of VeloNews bring cycling fans up to speed with riveting reportage on the Tour de France: who was there, what the course was, and how Lance Armstrong (racing for Phonak team) fared going out for his sixth straight win. The book begins with follow-up coverage from last year's race that brings the reader up-to-date, and it reviews every stage of the three-week long race through some of the most beautiful countrysides and extreme terrain in France and surrounding countries. The editors detail the people and events that make each year's race unique: the contenders and their teams - including Jan Ullrich, Joseba Beloki, and Tyler Hamilton - as well as a course map with stage elevations and race descriptions complete with anecdotes. Meanwhile, world-renowned cycling photographer Graham Watson take readers to the sidelines, bringing the event to life from start to finish. The book also features daily journal entries by Tyler Hamilton, a member of the USA/CSC-Tiscali cycling team.

About the Author Pardon Our Monsters is Andrew Hoods first book. He won the Irving Layton Award for Undergraduate Fiction at Concordia University, and his stories have appeared in Concordias Soliloquies and Headlight Anthology. He lives in Montreal.
